Our back up plans in case we do not get channel racing with YBs or any racing at all (dependent on the changing info we receive over the next few weeks/months):

1. If we only have inland racing and this looks like it may continue into 2022 the Thames will put a race on from the South West as an Inland race in 2021 at around 200 miles to Essex, which will be for the Thames Open Race, Gold ring and Breeder/Buyer.
2. If no racing is allowed for the YBs at all in 2021 than all the prize money for both the Gold ring and Breeder Buyer will roll over to a yearling race with the BICC. Race point to be decided when we have better information as could be race 2 or maybe better as a latter come back race from Le Mans for example, if the pigeons have not been raced at all as YBs. (This is our preferred option).
